

NuWeld, Inc.
Fabricating the Future of Energy

Family owned and operated since 1997, our vision and values are our guiding principles for how we conduct business. We operate to the highest quality achievable and safety is at the forefront of everything we do.

Our Vision is to lead the way worldwide in Welding, Engineering and Fabrication for the Natural Gas and Power Industries.

Our Mission is to enhance and establish longstanding customer and supplier partnerships founded on our dedication to safety, passion for our people and products and commitment to excellence and outstanding quality.

Our values are the cornerstone of who we are, what we do and what we stand for.

Safety – It STARTS with our culture.

Quality – We provide excellence through continuous improvement initiatives and our ownership in the work we do.

Integrity – We operate to the highest ethical standards; we honor our obligations to family, faith and our community.

Teamwork – Having the right people is NuWeld's strength and our greatest competitive advantage.

Employees & Community – We trust, We value, We give back.
